# Pipeline Safety Mission

To protect people and the environment through education and the enforcement of federal and state pipeline safety regulations, and to provide information and guidelines to pipeline operators to ensure safe operations of pipeline facilities.

# Pipeline Safety

## How do we achieve this?

Under authority of the federal government and the commissions Pipeline Safety Program, and an Interagency Agreement between the Commission and Pipeline and Hazardous Materials Safety Administration (PHMSA)

Through the adoption and enforcement of CFR Title 49 Part 191, 192, 193, 195, 199 and 40 and enforcement of Arizona Administrative Code (AAC) and the Arizona Revised Statutes (ARS)
