PIG BUTCHERING SCAM–LIST OF COMMON TERMS

Investors need to understand the common terms related to Pig Butchering scams in order to protect themselves from being financially victimized.

Cryptocurrency—a digital currency in which transactions are verified and records maintained by a decentralized system using cryptography, rather than by a centralized authority.

Dating Apps—an application that enables people to meet for a date and possible lasting relationship (i.e., Tinder, Bumble, eHarmony).

Emotions—a natural instinctive state of mind deriving from one's circumstances, mood, or relationships with others.

Love Bombing—the action or practice of lavishing someone with attention or affection, especially in order to influence or manipulate them.

Manipulation—to control or play upon by artful, unfair, or insidious means especially to one's own advantage.
