

**Arizona Corporation Commission  
Winter Preparedness Update**  
Presented by David Mendoza and Jerry Graves  
October 4, 2012

 ENERGY TRANSFER

## Agenda

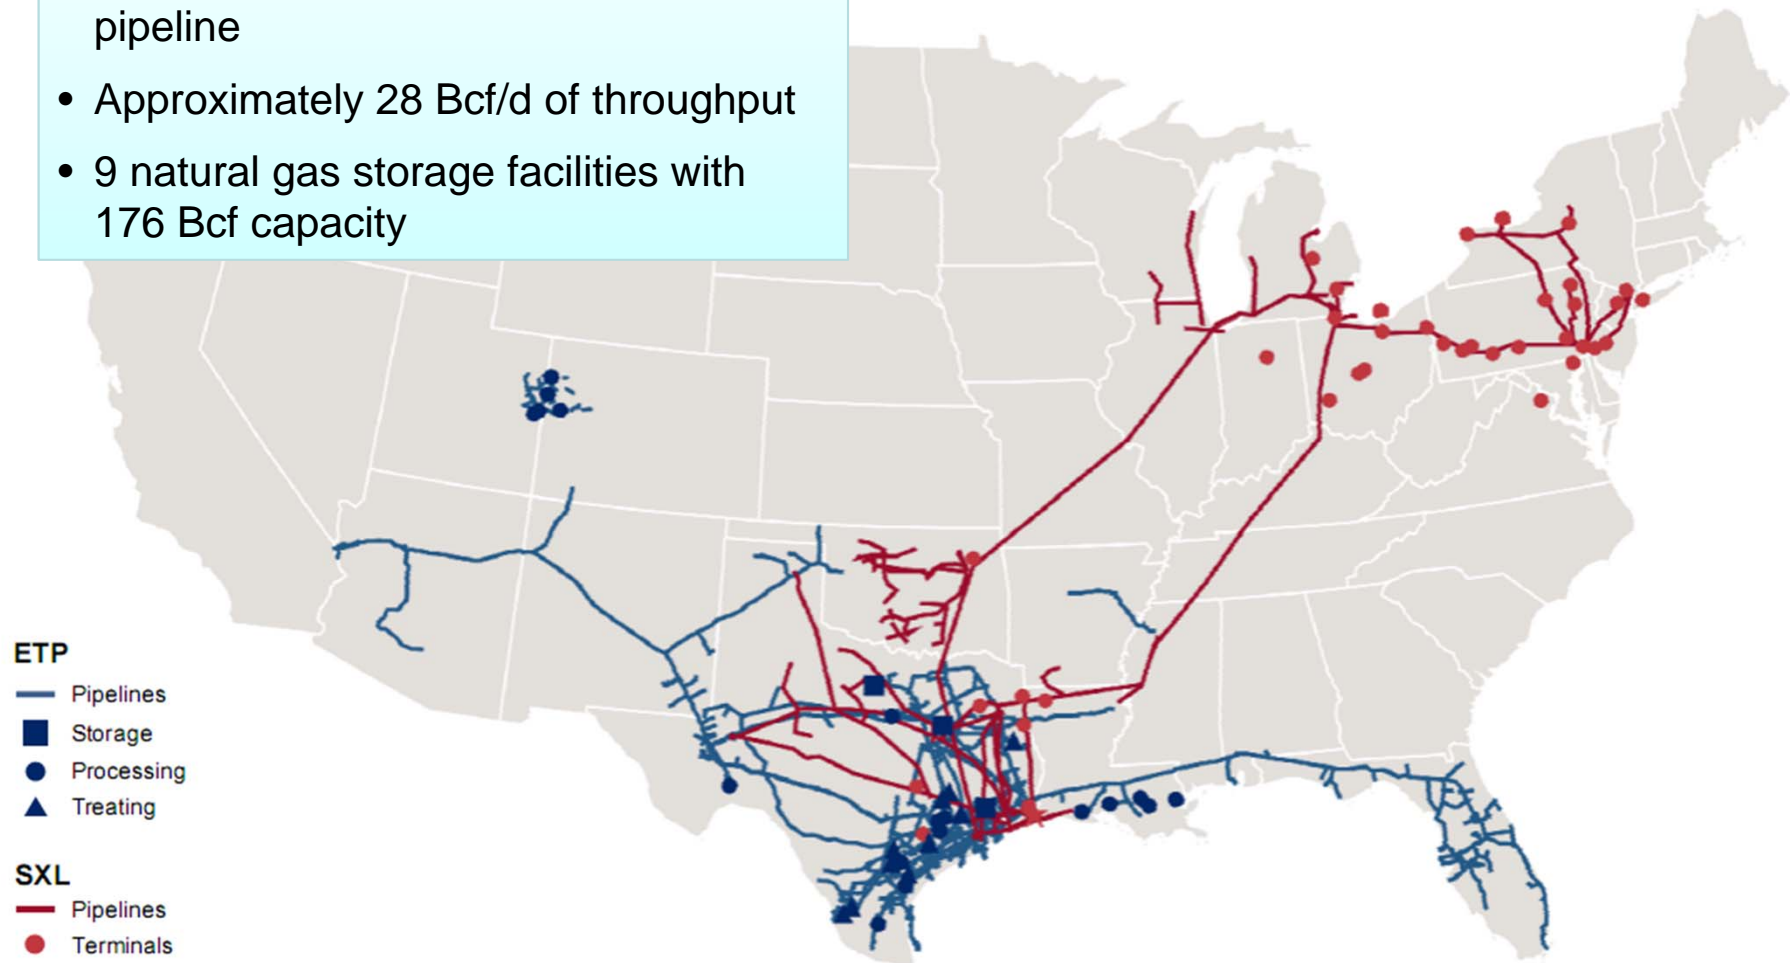

- Who We Are
  - Energy Transfer
  - Transwestern Pipeline
- What We Do
  - Supply Basins
  - Capacity
- Winter Preparedness
  - Plans
  - Fall Maintenance

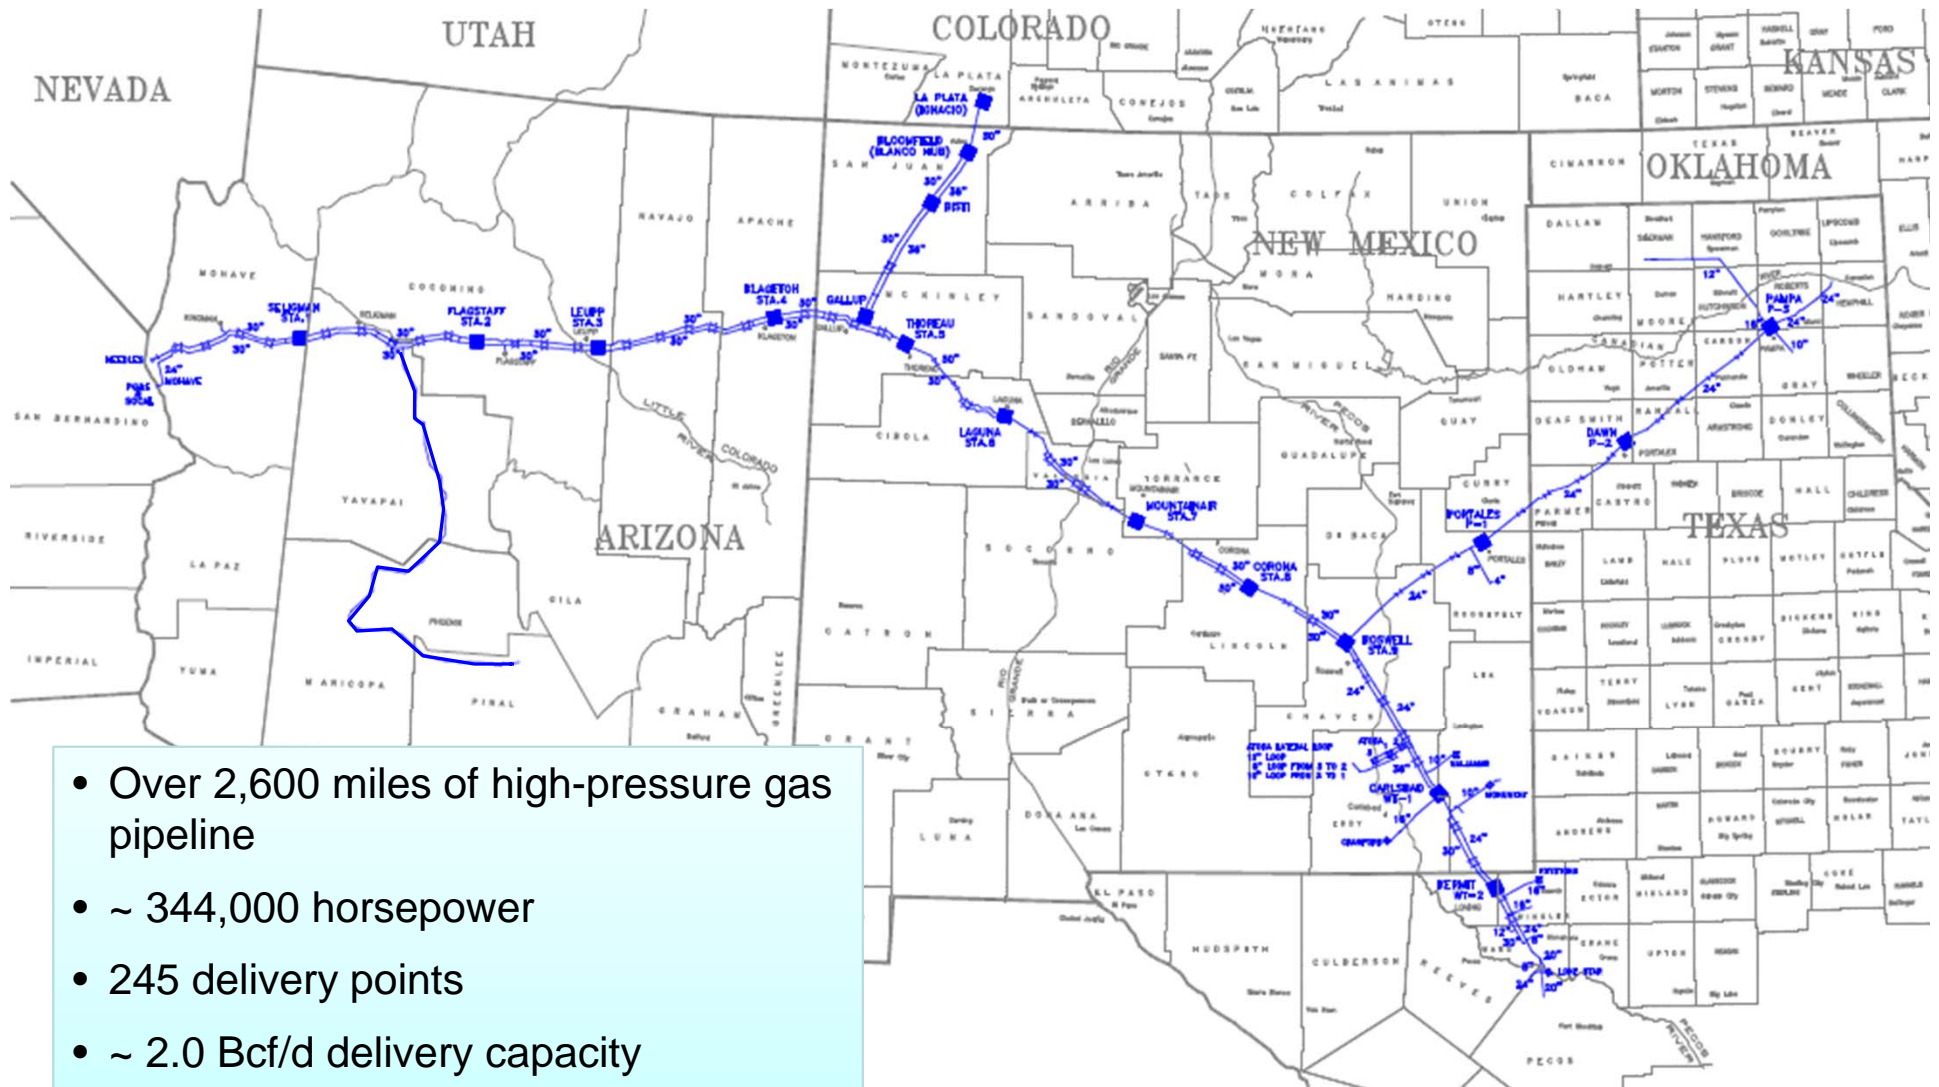

# The Energy Transfer Footprint

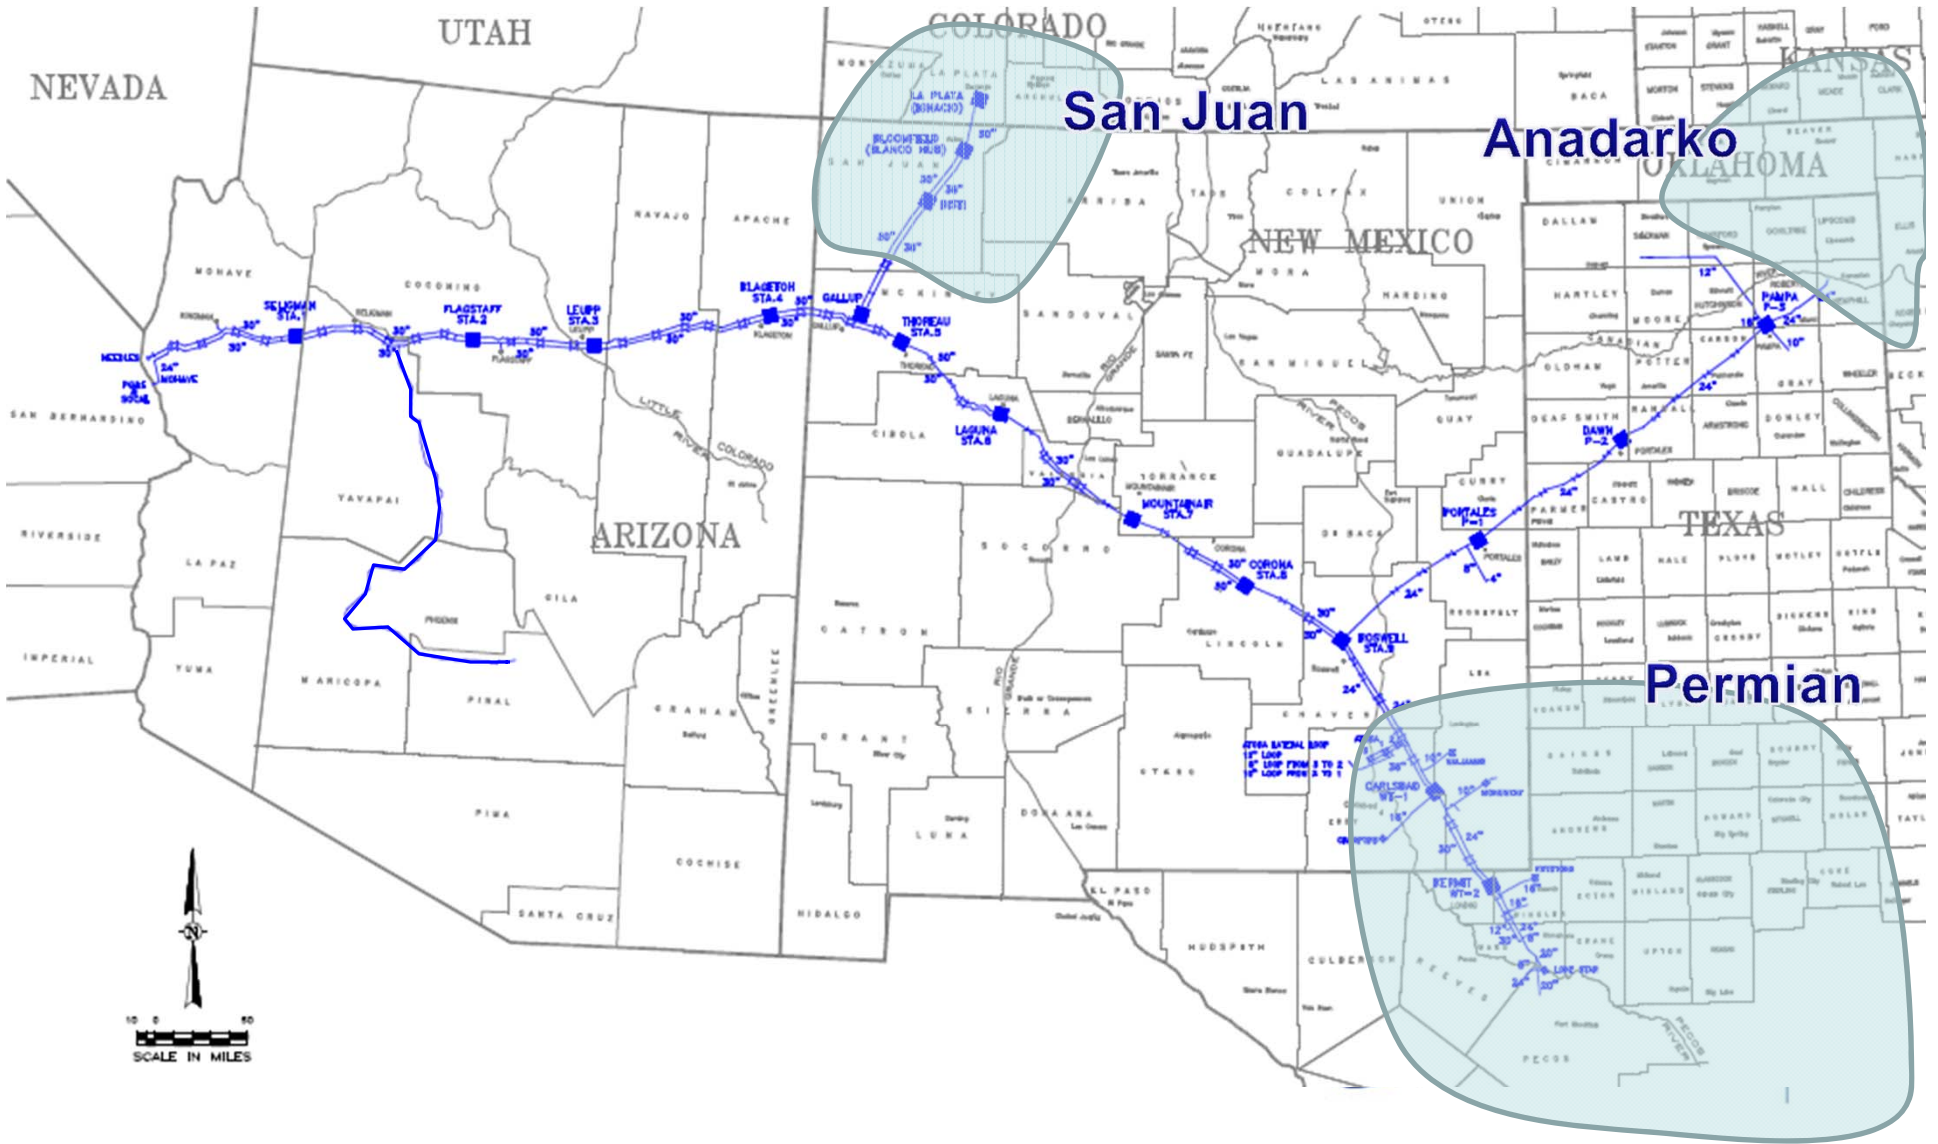

- Over 39,000 miles of natural gas pipeline
- Approximately 28 Bcf/d of throughput
- 9 natural gas storage facilities with 176 Bcf capacity

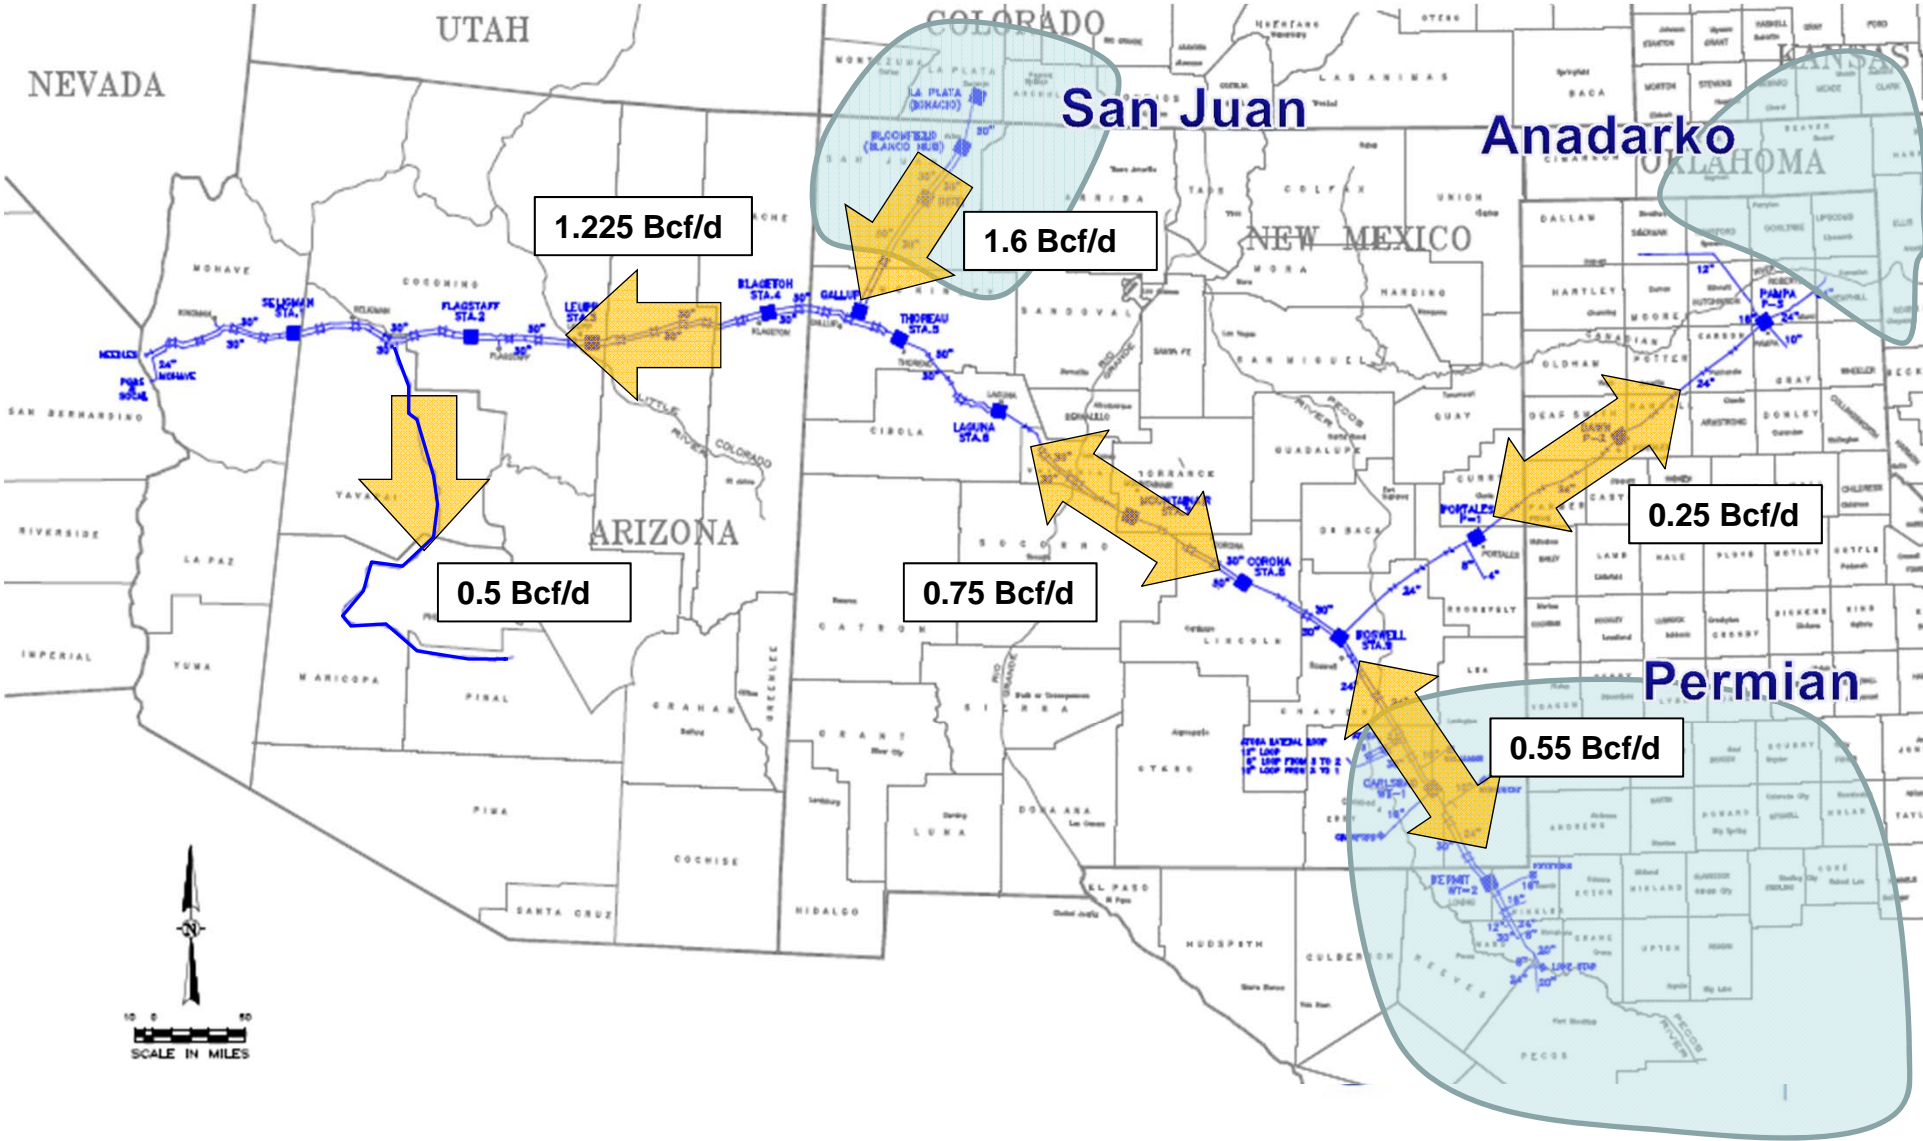

# The Transwestern Footprint

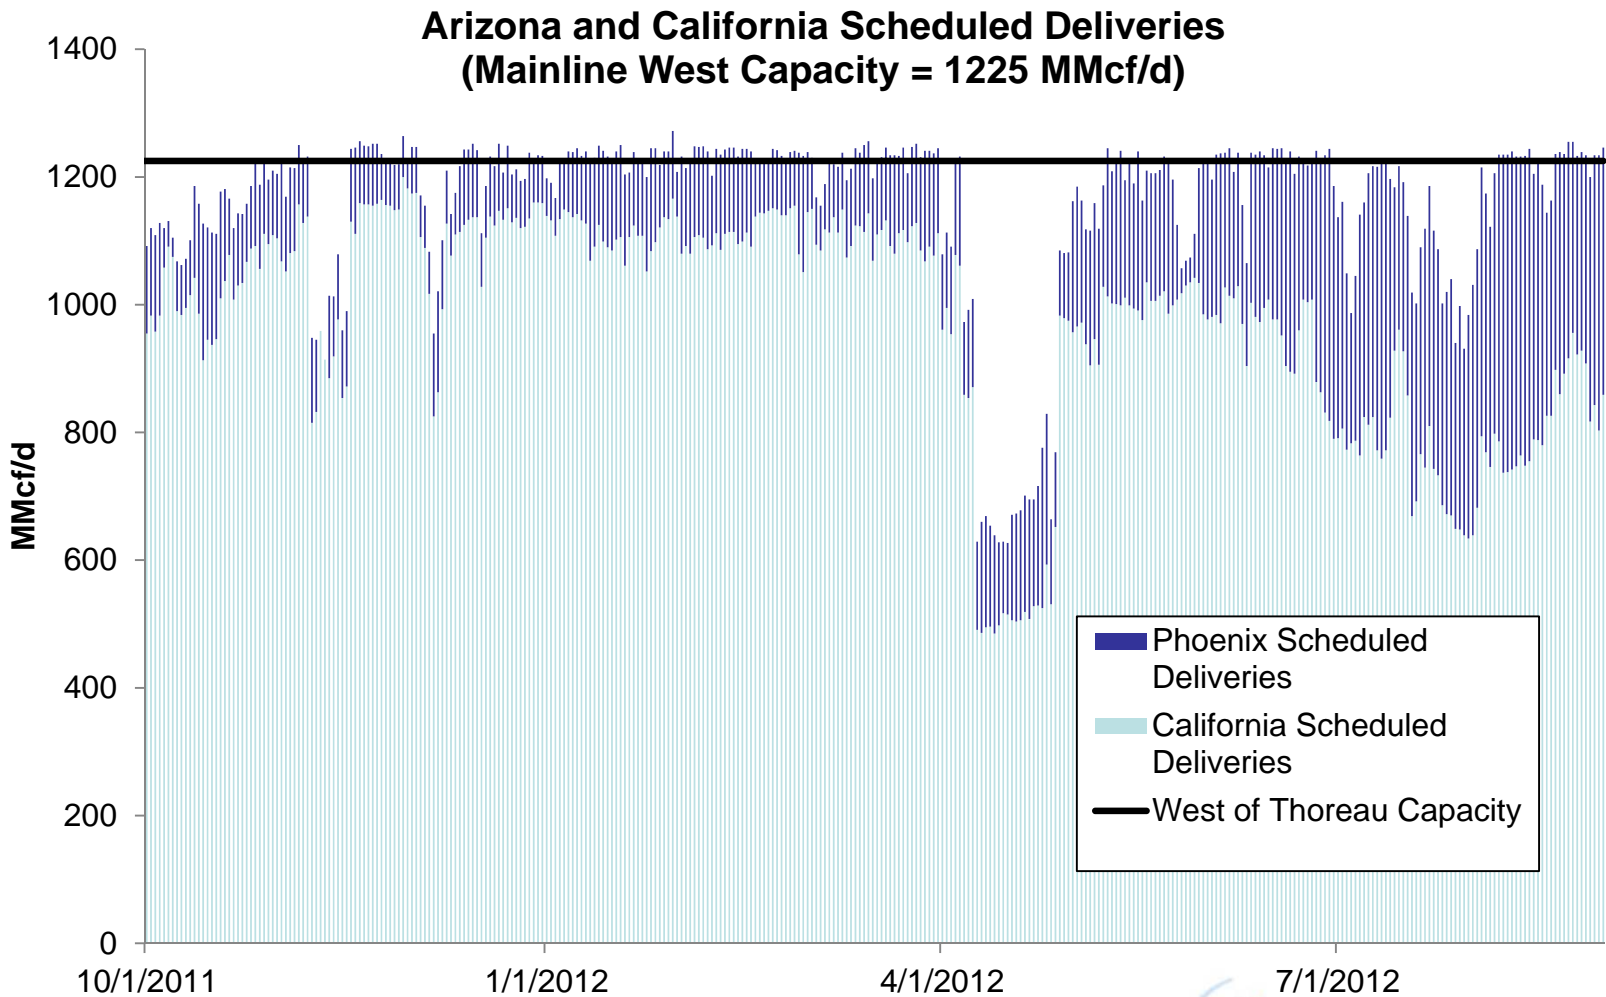

# Supply Diversity

# Transport Capacity

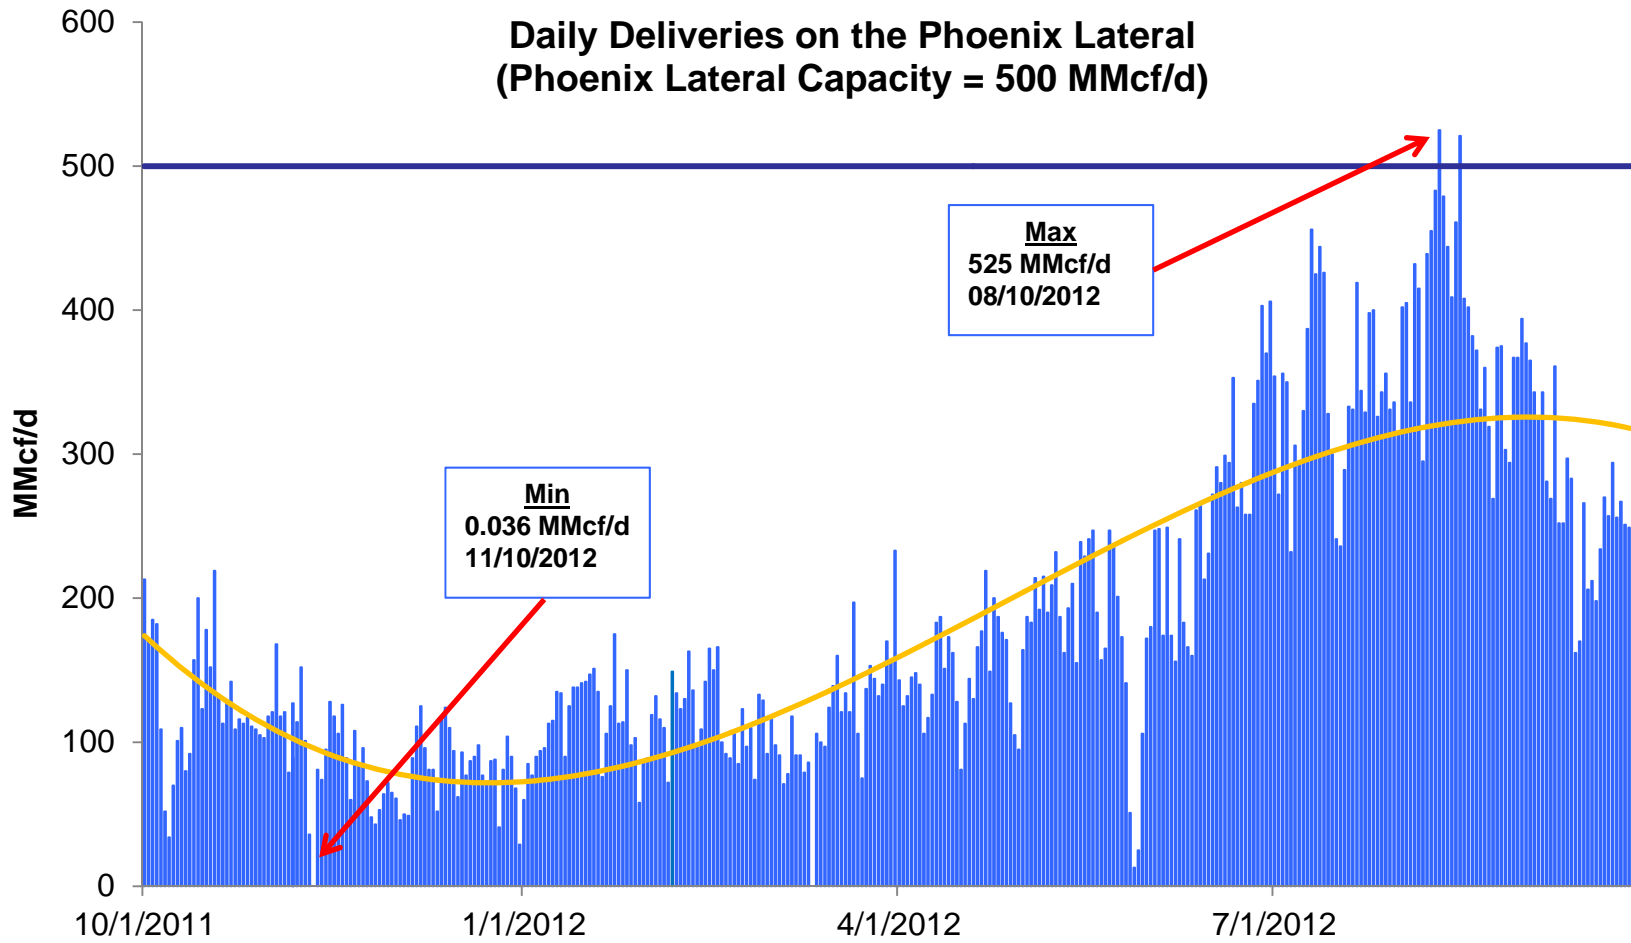

# AZ & CA Pipeline Capacity: Fully Utilized

■ Phoenix Scheduled Deliveries  
■ California Scheduled Deliveries  
— West of Thoreau Capacity

# Seasonal Throughput on the PHX Lateral

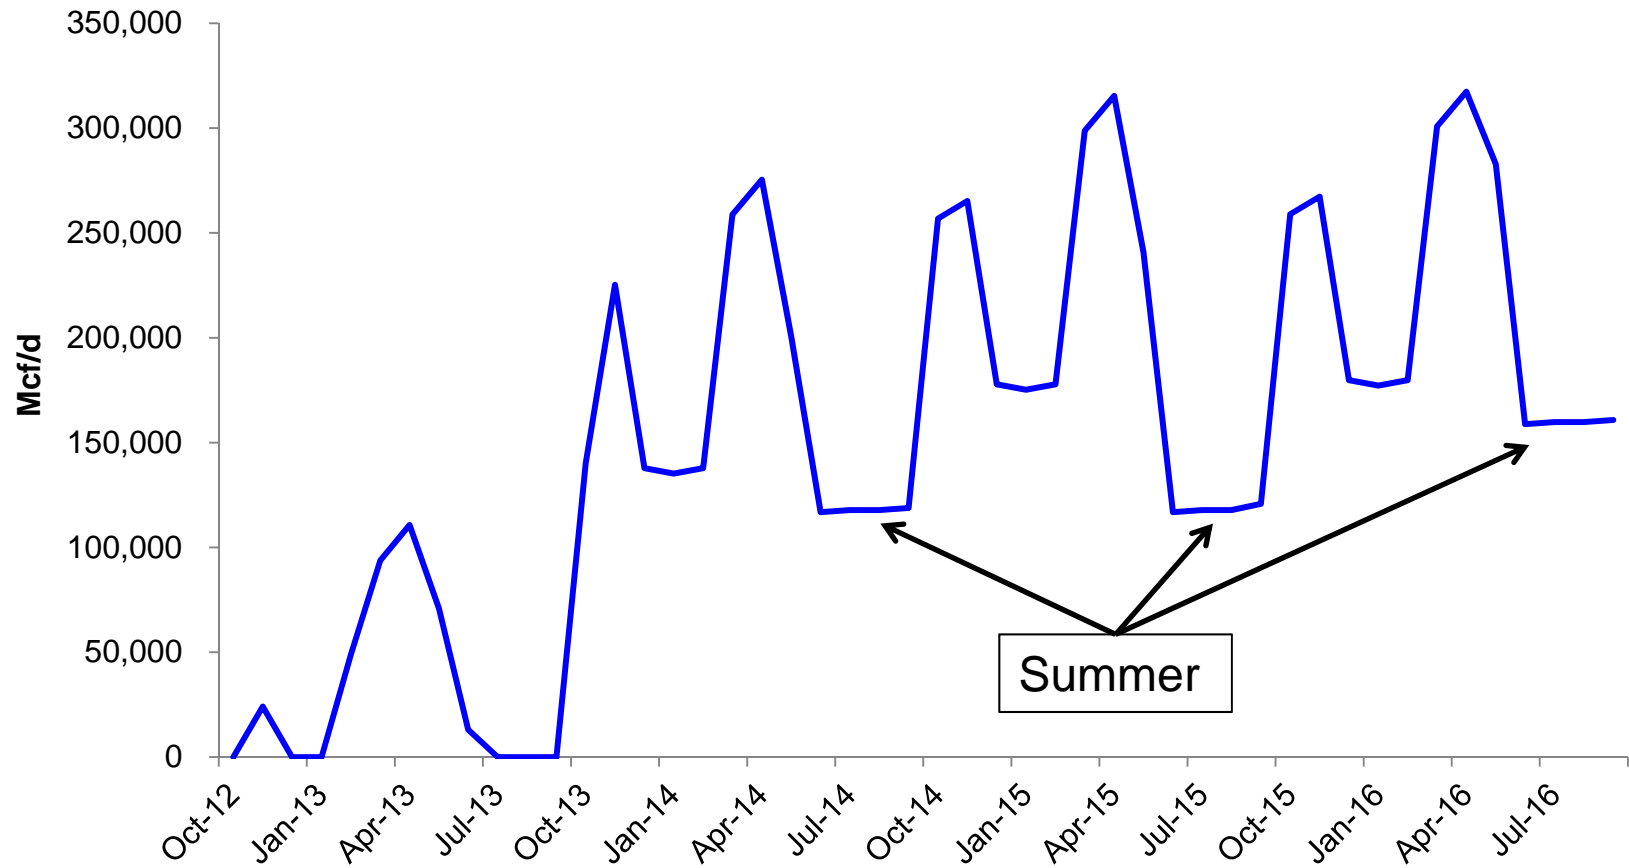

# Capacity is Available for Future Periods

### Available Mainline West Capacity

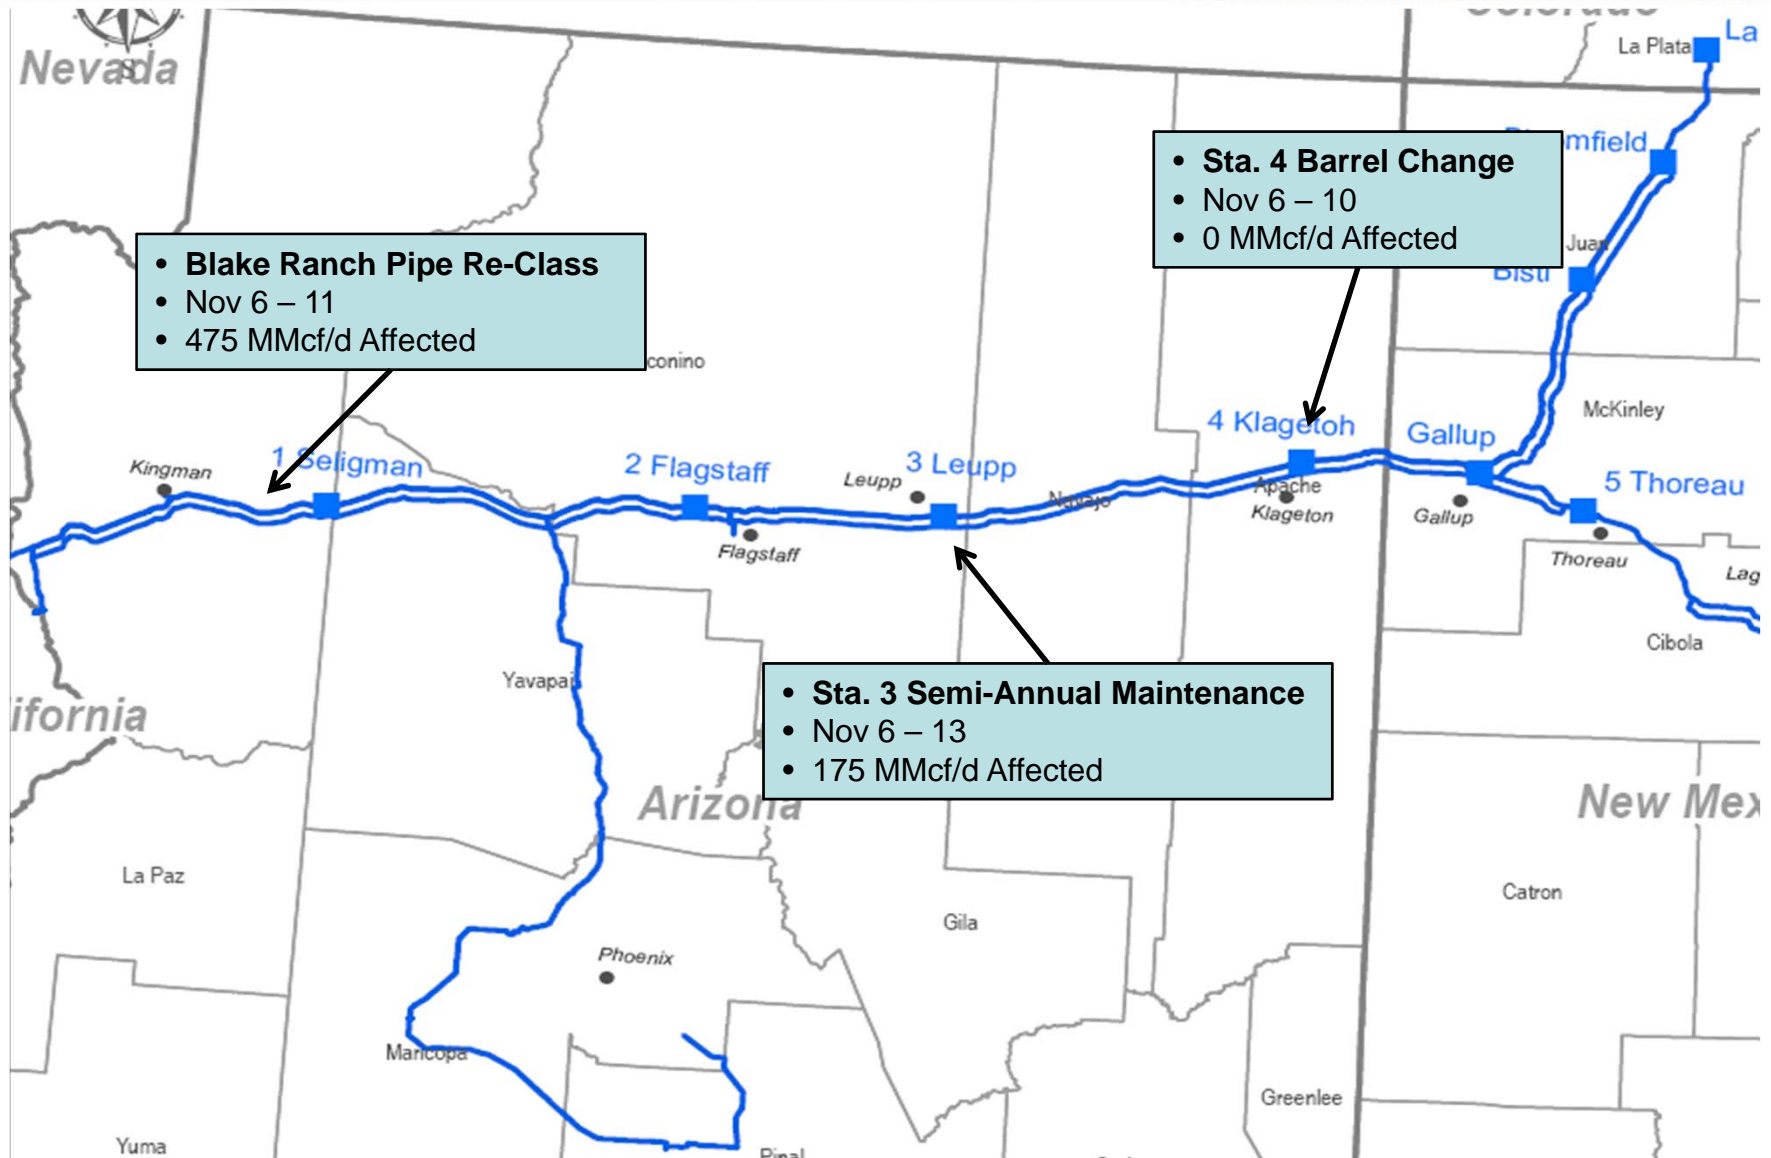

## Winter Preparedness – What We're Planning

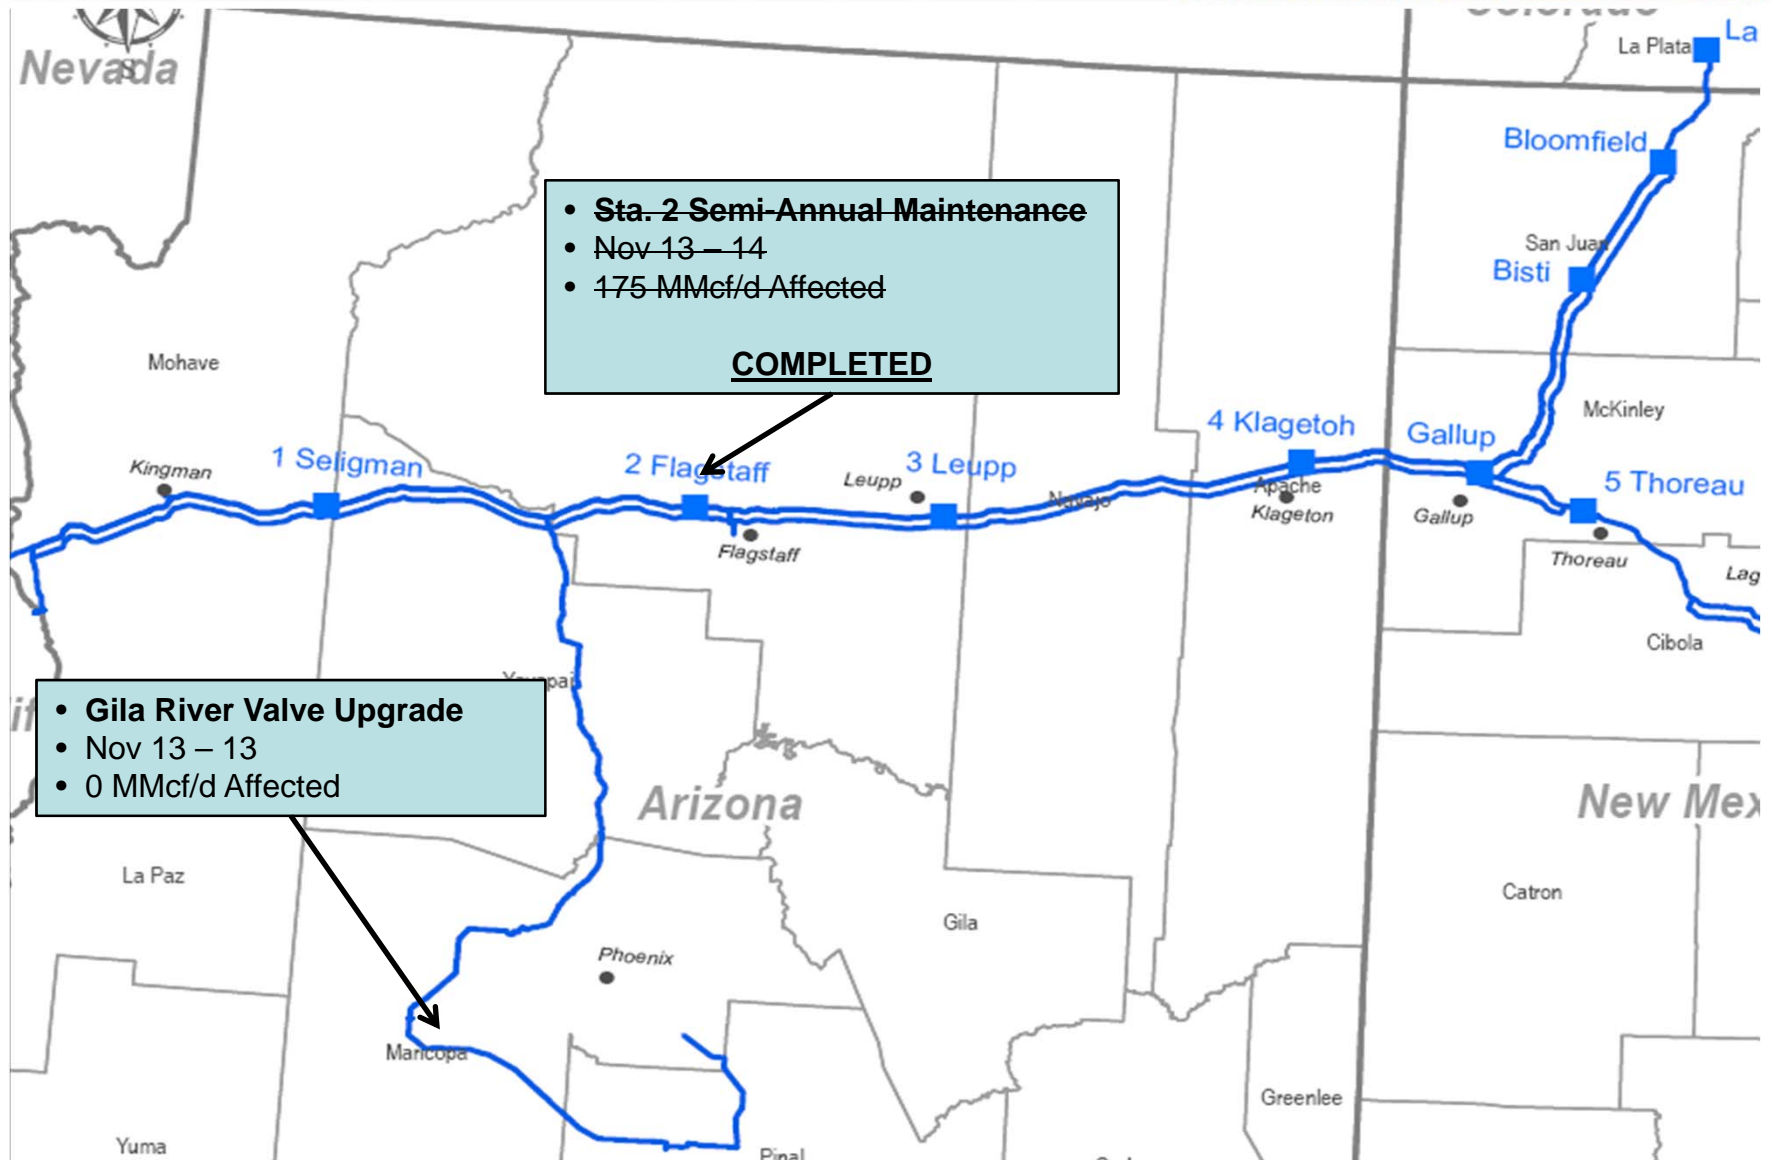

- TW's annual shipper winter prep meeting in Houston
- Attending AZ operator's winter prep meetings
  - UNS 9/12/2012
  - Southwest Gas (conference call)
- TW hosting tabletop mock emergency exercises in 2013
  - EPNG hosted in 2012

## Fall Maintenance – 11/6/2012

# Fall Maintenance – 11/13/2012

# Fall Maintenance – 11/14/2012
