TARIFF FORMAT

**ORIGINAL**

A. Sheet Numbering: Sheet numbers appear in the upper right corner of the page. Sheets are numbered sequentially. However, new sheets are occasionally added to the tariff. When a new sheet is added between sheets already in effect, a decimal is added. For example, a new sheet added between pages 11 and 12 would be page 11.1.

B. Sheet Revision Numbers: Revision numbers also appear in the upper right corner of each sheet where applicable. These numbers are used to indicate the most current page version on file with the Commission. For example, 4th Revised Sheet 13 cancels 3rd Revised Sheet 13. Consult the Check Sheet for the sheets currently in effect.

C. Paragraph Numbering Sequence: There are nine levels of paragraph coding. Each level of coding is subservient to its next higher level:

2.  
2.1  
2.1.1  
2.1.1.A  
2.1.1.A.1  
2.1.1.A.1. (a)  
2.1.1.A.1.(a).1  
2.1.1.A.1.(a).1.(i)  
2.1.1.A.1.(a).1.(i).(1)

D. Check Sheets: When a tariff filing is made with the Commission, an updated Check Sheet accompanies the tariff filing. The Check Sheet lists the sheets contained in the tariff, with a cross reference to the current Revision Number. When new sheets are added, the Check Sheet is changed to reflect the revision. All revisions made in a given filing are designated by an asterisk (\*). There will be no other symbols used on this sheet if these are the only changes made to it (i.e., the format, etc. remains the same, just revised revision levels on some sheets). The tariff user should refer to the latest Check Sheet to find out if a particular sheet is the most current on Commission file.

**SECTION 3 - DESCRIPTION OF SERVICE**

**3.1 General**

- 3.1.1 Services offerings that include unlimited Usage are limited to use for standard business voice applications. This includes service offerings providing for unlimited local Usage, unlimited intraLATA Usage and/or unlimited interLATA Usage. No non-standard business use of any form is permitted for such unlimited service offerings. Incidental calling for dial-up internet access, for data and fax type applications and for other similar restricted uses reflected in this tariff is permitted up to a maximum of 1200 minutes within any thirty-day period; any such Usage beyond this threshold shall be presumed to be non-standard business in nature. If, at any time, the Company determines that the Customer's Usage is non-standard business or is not consistent with use for business voice applications, the Company may immediately take actions to enforce adherence to this tariff and to the Company's Statement of Terms and Conditions of Service that are applicable to interLATA and international long distance. Such actions may include the transition to a higher tier within the customer's existing service plan.

The Company will notify the Customer in writing when the previous month's Usage exceeds that normally associated with standard business voice applications. Such written notice will inform the Customer that a higher tier rate will apply if, after two additional months, the Usage remains above Usage thresholds established in the existing service plan. Customers whose excessive Usage levels resulted in a higher rate will, upon request, qualify for the lower-tier rate(s) after three consecutive months of Usage below Usage thresholds established in the existing service plan.

- 3.2.2 Timing on completed calls begins when the call is answered by the called party. Answering is determined by hardware answer supervision in all cases where this signaling is provided by the terminating local carrier and any intermediate carrier(s).
- 3.2.3 Timing terminates on all calls when the calling party hangs up or the Company's network receives an on-hook signal from the terminating carrier.
- 3.2.4 Calls originating in one time period and terminating in another will be billed in proportion to the rates in effect during different segments of the call.
- 3.2.5 All times refer to local times.
- 3.2.6 Rates are not distance sensitive. As such, unless otherwise indicated, mileage bands are not applicable to the services offered.
- 3.2.7 Unless otherwise indicated, rates do not vary depending upon day or the time of day (Day, Evening, and Night/Weekend).
- 3.2.8 Each call is rated and billed in whole cents. Any rated call with a fraction of a will be rounded up to the nearest whole cent.
