ORIGINALARIZONA CORPORATION
COMMISSION

CROSS-CONNECTION OR BACKFLOW TARIFF

Director of Utilities

APPLICABILITY:

All customers served by Camp Verde Water System

PURPOSE:

To protect the public water supply from the possibility of contamination caused by backflow through unprotected cross-connections by requiring installation and periodic testing of backflow-prevention assemblies pursuant to provisions of Arizona Administrative Code (A.A.C.) R14-2-405.B.6 and A.A.C. R18-4-232.

REQUIREMENTS:

In compliance with the rules and regulations of the Arizona Corporation Commission and the Arizona Department of Environmental Quality (ADEQ), specifically A.A.C. R14-2-405.B.6 and A.A.C. R18-4-232 relating to backflow prevention:

1. Camp Verde Water System may require a customer to pay for and install a backflow-prevention assembly if A.A.C. R18-4-232.B or C applies.

2. A backflow-prevention assembly required to be installed by the customer under paragraph 1 of this tariff shall comply with the requirements set forth in A.A.C. R18-4-232. D and E.

3. Subject to the provisions of A.A.C. R14-2-407 and 410 and in accordance with paragraphs 1 and 7 of this tariff, Camp Verde Water System may terminate service or deny service to a customer who fails to install a backflow-prevention assembly as required by this tariff.

4. Camp Verde Water System shall give any existing customer who is required to install a backflow-prevention assembly written notice of said requirement. If A.A.C. R14-2-410.B1.a. is not applicable, the customer shall be given thirty (30) days in which to comply with this notice. If the customer can show good cause as to why he cannot install the device within thirty (30) days, Camp Verde Water System or Commission Staff may suspend this requirement for a reasonable period of time.

5A. Testing shall be in conformance with the requirements of A.A.C. R18-4-232F. Camp Verde Water System may require the customer to pay to have the backflow-prevention assembly tested as long as he Company does not require an unreasonable number of tests. Camp Verde Water System may also require the customer to pay for repairs to a backflow-prevention assembly.

EFFECTIVE JULY 25, 1992

APPROVED FOR FILING

DECISION #: 57953

ORIGINAL

5B. In the event the customer elects to have the Camp Verde Water System complete the periodic testing (usually once annually), on the backflow-prevention assembly, the Camp Verde Water System is authorized to charge \$25.00 for the testing of the device. This fee will include up to one hours labor. In the event that the device requires repairs beyond the one hour, Camp Verde Water System is authorized to charge \$20.00 per hour for labor and the actual cost for parts. The customer will have the option of using an outside contractor for the testing and repair of the backflow-prevention assembly.

6. The customer shall provide Camp Verde Water System with records of installation and testing. For each backflow-prevention assembly, these records shall include:

- a. assembly identification number and description;
- b. location;
- c. date(s) of test(s);
- d. description of repairs and recommendations for repairs made by tester; and
- e. the tester's name and certificate number.

7A. In the event the backflow-prevention assembly does not function properly or fails any test, and a hazard as contemplated under A.A.C. R14-2-410.B.1.a. exists, Camp Verde Water System may terminate service immediately and without notice. The backflow-prevention assembly shall be repaired or replaced by the customer and retested before service is restored.

7B. In the event the backflow-prevention assembly does not function properly or fails any test, or in the event that a customer fails to comply with the testing requirement, and A.A.C. R14-2-410.B.1.a. is not applicable, the backflow-prevention assembly shall be repaired or replaced within fourteen (14) days of the initial discovery of the deficiency in the assembly or its function. Failure to remedy the deficiency or disfunction of the assembly, or failure to retest, shall be grounds for termination of water service in accordance with A.A.C. R14-2-410.

8. Camp Verde Water System is authorized to charge a one time, non-refundable permit fee of \$10.00 per backflow-prevention assembly installation. This fee shall cover the costs of inspection and testing of the initial installation of the backflow-prevention assembly, and subsequent reporting required to be made by the Camp Verde Water System to the Arizona Department of Environmental Quality regarding the assembly. Payment of this fee shall be made by customer at the same time as submission of a certificate of installation of the backflow-prevention assembly to the Camp Verde Water System. In the event the fee payment is not submitted with the certificate of installation, Camp Verde Water System shall be authorized to add the fee to the customer's following month's water service billing.
