WATER SYSTEM TAMPERING TARIFF – BMP 5.2

PURPOSE

The purpose of this tariff is to promote the conservation of groundwater by enabling the Company to bring an action for damages or to enjoin any activity against a person who tampers with the water system.

REQUIREMENTS:

The requirements of this tariff are governed by Rules of the Arizona Corporation Commission, specifically Arizona Administrative Code ("AAC") R14-2-410 and the Arizona Department of Water Resources' Required Public Education Program and Best Management Practices in the Modified Non-Per Capita Conservation Program.

1. In support of the Company's water conservation goals, the Company may bring an action for damages or to enjoin any activity against a person who: (1) makes a connection or reconnection with property owned or used by the Company to provide utility service without the Company's authorization or consent; (2) prevents a Company meter or other device used to determine the charge for utility services from accurately performing its measuring function; (3) tampers with property owned or used by the Company; or (4) uses or receives the Company's services without the authorization or consent of the Company and knows or has reason to know of the unlawful diversion, tampering or connection. If the Company's action is successful, the Company may recover as damages three times the amount of actual damages.
2. Compliance with the provisions of this tariff will be a condition of service.
3. The Company shall provide to all its customers, upon request, a complete copy of this tariff and AAC R14-2-410. The customers shall follow and abide by this tariff.
4. If a customer is connected to the Company water system and the Company discovers that the customer has taken any of the actions listed in No. 1 above, the Company may terminate service per AAC R14-2-410.
5. If a customer believes he/she has been disconnected in error, the customer may contact the Commission's Consumer Services Section at 1-800-222-7000 to initiate an investigation.

CROSS-CONNECTION OR BACKFLOW TARIFF

PURPOSE:

The purpose of this tariff is to protect Clear Springs Utility Co., Inc. ("Company") water from the possibility of contamination caused by the backflow of contaminants that may be present on the customer's premises by requiring the installation and periodic testing of backflow-prevention assemblies pursuant to the provisions of the Arizona Administrative Code ("A.A.C.") R14-2-405.B.6 and A.A.C. R18-4-215.

REQUIREMENTS:

In compliance with the Rules of the Arizona Corporation Commission ("Commission") and the Arizona Department of Environmental Quality ("ADEQ"), specifically A.A.C. R14-2-405.B.6 and A.A.C. R18-4-215 relating to backflow prevention:

1. The Company may require a customer to pay for and to have installed a backflow-prevention assembly if A.A.C. R18-4-215.B or C applies.
2. A backflow-prevention assembly required to be installed by the customer under Paragraph 1 of this tariff shall comply with the requirements set forth in A.A.C. R18-4-215.D and E.
3. Subject to the provisions of A.A.C. R14-2-407 and 410, and in accordance with Paragraphs 1 and 7 of this tariff, the Company may terminate service or may deny service to a customer who fails to install a backflow-prevention assembly as required by this tariff
4. The Company shall give any existing customer who is required to install a backflow-prevention assembly written notice of said requirement. If A.A.C. R14-2-410.B.1.a. is **not** applicable, the customer shall be given thirty (30) days from the time such written notice is received in which to comply with this notice. If the customer can show good cause as to why he cannot install the backflow-prevention assembly within thirty (30) days, the Company or Commission Staff may suspend this requirement for a reasonable period of time.

Effective Date: March 19, 2010

ADMINISTRATIVELY
APPROVED FOR FILING

5. Testing shall be in conformance with the requirements of A.A.C. R18-4-215.F. The Company may require the customer to pay to have the backflow-prevention assembly tested as long as the Company does not require an unreasonable number of tests.
6. The customer shall provide the Company with records of installation and testing. For each backflow-prevention assembly, these records shall include:
 - a. assembly identification number and description;
 - b. location
 - c. date(s) of test(s);
 - d. description of repairs and recommendations for repairs made by tester; and
 - e. the tester's name and certificate number.
7. In the event the backflow-prevention assembly does not function properly or fails any test, and an obvious hazard as contemplated under A.A.C. R14-2-410.B.1.a. exists, the Company may terminate service immediately and without notice. The backflow-prevention assembly shall be repaired or replaced by the customer and retested.
8. In the event the backflow-prevention assembly does not function properly or fails any test, or in the event that a customer fails to comply with the testing requirement, and A.A.C. R14-2-410.B.1.a. is **not** applicable, the backflow-prevention assembly shall be repaired or replaced within fourteen (14) days of the initial discovery of the deficiency in the assembly or its function. Failure to remedy the deficiency or dysfunction of the assembly, or failure to retest, shall be grounds for termination of water service in accordance with A.A.C. R14-2-410.

CURTAILMENT PLAN FOR CLEAR SPRINGS UTILITY COMPANY, INC.

The Company is authorized to curtail water service, to all customers, residential and commercial, within its certificated area under the following terms and conditions:

Stage 1 Exists When:

- a. The Company is able to maintain water storage in the system at 100 % of capacity and there are no known problems with its well production or water storage in the system.

Restrictions: Under Stage 1, the Company is deemed to be operating normally and no curtailment is necessary.

Notice Requirements: Under Stage 1, no notice is necessary.

Stage 2 Exists When:

- a. The Company's total storage and well production has been less than 80 % of capacity for at least 48 consecutive hours, and
- b. The Company has identified issues such as steadily declining water table, an increased draw-down threatening pump operations, and poor water production creating a reasonable belief the Company will be unable to meet anticipated water demands in the system.

Restrictions: Under Stage 2, the Company may request the customers to voluntarily employ water conservation measures to reduce water consumption by approximately 50 %. Outside watering should be limited to essential water, dividing outside watering on some uniform basis (such as even and odd days) and eliminating outside watering on weekends and holidays.

Notice Requirements: Under Stage 2, the Company is required to notify customers by delivering written notice door to door at each service address, or by United States first class mail to the billing address or, at the Company's option, both. Such Notice shall notify the customers of the general nature of the problem and the need to conserve water.

Stage 3 Exists When:

- a. The Company's total storage and well production has been less than 50 % for at least 24 consecutive hours.
- b. The Company has identified issues such as a steadily declining water table, and increased draw down threatening pump operations creating a reasonable belief the Company will be unable to meet anticipated water demand on a sustained basis.

Restrictions: Under Stage 3, the Company shall request the customers to voluntarily employ water conservation measures to reduce daily consumption by approximately 50 %. All outside watering should be eliminated, except livestock, and indoor water conservation techniques should be employed wherever possible.

Tariff Schedule (continued)

Utility: Clear Springs Utility Company, Inc.
Docket No.: W-01689 A-01-0437
Phone No.: 520-623-5172

Tariff Sheet No.: 2 of 2
Decision No. 63919
Effective: August 6, 2001

Notice Requirements: a. The Company is required to notify customers by delivering written notice to each service address, or by United States first class mail to the billing address or, at the company's option, both. Such Notice shall notify the customers of the general nature of the problem and the need to conserve water.

b. Beginning with Stage 3, the Company shall post at least two signs showing curtailment stage. Signs shall be posted at the well site and at the entrance to the major subdivision served by the Company.

c. The Company shall notify the Consumer Services Section of the Utilities Division of the Commission at least 12 hours prior to entering Stage 3. In addition, the Company shall inform the Consumer Services Section of the Company's plans to correct the water shortage problem and how long the Company expects to remain in Stage 3.

Stage 4 Exists When:

- a. The Company's total storage has been less than 25 % for at least 12 consecutive hours.
- b. The Company has identified issues such as steadily declining water table, an increased draw-down threatening pump operations, and poor water production creating a reasonable belief the Company will be unable to meet anticipated water demands in the system.

Restrictions: Under Stage 4, the Company shall inform the customers of a mandatory restriction to employ water conservation measures to reduce daily consumption. All outside watering should be eliminated, except livestock, and indoor water conservation techniques should be employed wherever possible. Failure to comply will result in temporary disconnection.

Notice Requirements: a. The Company is required to notify customers by delivering written notice to each service address, or by United States first class mail to the billing address or, at the company's option, both. Such Notice shall notify the customers of the general nature of the problem and the need to conserve water.

b. The Company shall have posted at least two signs showing curtailment stage. Signs shall be posted at the well site and at the entrance to the major subdivision served by the Company.

c. The Company shall notify the Consumer Services Section of the Utilities Division of the Commission at least 12 hours prior to entering Stage 4. In addition, the Company shall inform the Consumer Services Section of the Company's plans to correct the water shortage problem and how long the Company expects to remain in Stage 4. The Company shall immediately notify the Consumer Services Section when the Stage 4 restrictions are lifted.

d. Customers who fail to comply with cessation of outdoor use provisions will be given a written notice to end all outside use. Failure to comply within two (2) working days of receipt of the notice will result in temporary loss of service until an agreement can be made to end unauthorized use of outside water. To restore service, the customer shall be required to pay all authorized reconnection fees.
