CROSS-CONNECTION OR BACKFLOW TARIFF

PURPOSE:

The purpose of this tariff is to protect Sun Valley Farms Unit VI Water Company Inc. ("Company") water from the possibility of contamination caused by the backflow of contaminants that may be present on the customer's premises by requiring the installation and periodic testing of backflow-prevention assemblies pursuant to the provisions of the Arizona Administrative Code ("A.A.C.") R14-2-405.B.6 and A.A.C. R18-4-115.

REQUIREMENTS:

In compliance with the Rules of the Arizona Corporation Commission ("Commission") and the Arizona Department of Environmental Quality ("ADEQ"), specifically A.A.C. R14-2-405.B.6 and A.A.C. R18-4-115 relating to backflow prevention:

1. The Company may require a customer to pay for and to have installed a backflow-prevention assembly if A.A.C. R18-4-115.B or C applies.
2. A backflow-prevention assembly required to be installed by the customer under Paragraph 1 of this tariff shall comply with the requirements set forth in A.A.C. R18-4-115.D and E.
3. Subject to the provisions of A.A.C. R14-2-407 and 410, and in accordance with Paragraphs 1 and 7 of this tariff, the Company may terminate service or may deny service to a customer who fails to install a backflow-prevention assembly as required by this tariff
4. The Company shall give any existing customer who is required to install a backflow-prevention assembly written notice of said requirement. If A.A.C. R14-2-410.B.1.a. is **not** applicable, the customer shall be given thirty (30) days from the time such written notice is received in which to comply with this notice. If the customer can show good cause as to why he cannot install the device within thirty (30) days, the Company or Commission Staff may suspend this requirement for a reasonable period of time.

****FOR OFFICIAL USE ONLY****

Effective Date: _____

5. Testing shall be in conformance with the requirements of A.A.C. R18-4-115.F. The Company may require the customer to pay to have the backflow-prevention assembly tested as long as the Company does not require an unreasonable number of tests.
6. The customer shall provide the Company with records of installation and testing. For each backflow-prevention assembly, these records shall include:
 - a. assembly identification number and description;
 - b. location
 - c. date(s) of test(s);
 - d. description of repairs and recommendations for repairs made by tester; and
 - e. the tester's name and certificate number.
7. In the event the backflow-prevention assembly does not function properly or fails any test, and an obvious hazard as contemplated under A.A.C. R14-2-410.B.1.a. exists, the Company may terminate service immediately and without notice. The backflow-prevention assembly shall be repaired or replaced by the customer and retested.
8. In the event the backflow-prevention assembly does not function properly or fails any test, or in the event that a customer fails to comply with the testing requirement, and A.A.C. R14-2-410.B.1.a. is **not** applicable, the backflow-prevention assembly shall be repaired or replaced within fourteen (14) days of the initial discovery of the deficiency in the assembly or its function. Failure to remedy the deficiency or dysfunction of the assembly, or failure to retest, shall be grounds for termination of water service in accordance with A.A.C. R14-2-410.

EMERGENCY WATER AUGMENTATION SURCHARGE TARIFF
AND PLAN OF ADMINISTRATION

Utility: Sun Valley Farms, Unit VI Water Company, Inc. Decision No.: 77050

Docket No.: W-02425A-18-0381 Effective Date: January 11, 2019

2019 JAN 28 P 2:58

ORIGINAL

I. Purpose and Applicability

Purpose

The purpose of this tariff is to authorize Sun Valley Farms, unit VI Water Company, Inc. ("Sun Valley" or "Company") to make monthly adjustments to its rates and charges for water service in order to recover costs incurred for water purchases and hauling ("Water Augmentation Costs") in the event that Sun Valley experiences an emergency water shortage¹. The charges will be assessed based on usage as provided below.

Applicability

This tariff is obtained during the processing of an emergency rate application and only applies to residential customers of Class C, D, and E water companies as defined by the Arizona Administrative Code. This tariff only applies in the event of an "emergency water shortage" as defined in Section II of the definitions below. If a company also wants a water augmentation surcharge that can be used during non-emergency situations, the company should file a request for such which includes a draft of the proposed non-emergency water augmentation surcharge tariff. The "Purpose" section of the proposed tariff should clearly explain the water shortage problems that would cause the non-emergency water augmentation surcharge to go into effect.

II. Definitions

Unless the context otherwise requires, the definitions set forth in R-14-2-401 of the Arizona Corporation Commission's ("Commission") rules and regulations governing water utilities shall apply in interpreting this tariff schedule.

"Affiliate," means any other entity² directly or indirectly controlling or controlled by, or under direct or indirect common control with Beaver Valley Water Company, Inc. For purposes of this definition, the term "control" (including the correlative meanings of the terms "controlled by" and "under common control with"), as used with respect to any entity, means the power to direct the management policies of such entity, whether through ownership of voting securities, or by contract, or otherwise.

"Company" means Sun Valley Farms, Unit VI Water Company, Inc.

"Curtailment Account Balance" means the monies collected under the curtailment tariff authorized in DECISION NO. 77050.

"Emergency Water Augmentation Surcharge" means the surcharge calculated in accordance with Section IV below. Arizona Corporation Commission

DOCKETED BY

¹ See definition for meaning of emergency water shortage.

² A corporation, partnership, limited partnership, joint venture, trust, estate, or natural person

APPROVED FOR FILING
DECISION #: 77050

ORIGINAL

“Emergency Water Shortage” means a water shortage of a serious nature, developing suddenly or unexpectedly, that is out of the Company’s control, and demanding immediate attention. Water shortages that are a recurring situation, for example, each year the utility needs to haul water every August, would not qualify as an emergency.

“Surcharge Rate” means the rate per 1,000 gallons that is calculated in accordance with Section III below.

“Water Augmentation Cost” means the actual cost of water purchased and water hauling costs.

“Water Augmentation Quantity” means the actual quantity of augmented water (in thousands of gallons).

“Water Sold” means the actual quantity (in thousands of gallons) of water sold by the Company to its Customers during the month corresponding to the month in which water was purchased.

III. Surcharge Rate Calculation

The surcharge is calculated using data from the previous month’s bill. For example, the water augmentation surcharge that is applied on the July bill is calculated using the June water augmentation costs and the June total gallons sold. See Attachment A for an example of the calculation.

For each month that the Company augments water, the Company will calculate the Surcharge Rate per the following formula:

Water Augmentation Cost / Water Sold

IV. Plan of Administration

(A) Intent To Bill Emergency Water Augmentation Surcharge: For any month in which water is augmented, after completing its billing for the month and receiving the billing for the month, the Company will calculate the Surcharge Rate using the same methodology discussed herein and shown on Attachment A and provide Utilities Division of the Arizona Corporation Commission (“Commission Staff”) notice of the Company’s intent to bill the Emergency Water Augmentation Surcharge.

(B) Notice to Commission Staff: For any month in which the Company intends to bill customers an Emergency Water Augmentation Surcharge, the Company shall provide Commission Staff notice of the Company’s intent to bill the Emergency Water Augmentation Surcharge. The notice to Commission Staff shall include the following:

1. The Water Augmentation Cost.
2. The Water Augmentation Quantity.
3. A copy of the bill(s) received for the Water Augmentation.
4. A description of the system problem necessitating Water Augmentation and a description of the action being taken by the Company to resolve the problem, including the date operations did or are expected to return to normal.
5. The dates for beginning and ending Water Augmentation.

APPROVED FOR FILING
DECISION #: 77050

6. A schedule showing the calculation of the Emergency Water Augmentation Surcharge Rate in excel format with formulas intact.
7. Identification of the hauling option(s) available. If only one option was available, please state that there was only one option.
8. Whether or not the hauling entity was an affiliate.

(C) Implementation of Emergency Water Augmentation Surcharge:

Commission Staff will review the Notice. If the filing is acceptable to Commission Staff, the resulting Surcharge will be charged in the following month, the Company will bill the Emergency Water Augmentation Surcharge to its customers. Each individual customer's billing for the Emergency Water Augmentation Surcharge will be based on that customer's actual usage for the previous month (the month corresponding to the Water Augmentation) times the Surcharge Rate. See Attachment 3A for an example of the calculation.

The Emergency Water Augmentation Surcharge shall be presented as a separate line item on the customer billing.

(D) Documentation to Be Maintained

The Company shall maintain documentation for all costs, billing determinants, and revenues recoveries.

(E) Customer Notice

The Company shall notify its customers of this new tariff as part of its next regularly scheduled billing after the effective date of the tariff or no later than sixty (60) days after the effective date of the tariff.
